IMAGINE FURTHER...

TO BRAVELY SEEK A SAFER, MORE PROSPEROUS AND LESS VIOLENT WORLD.

August 27, 2020
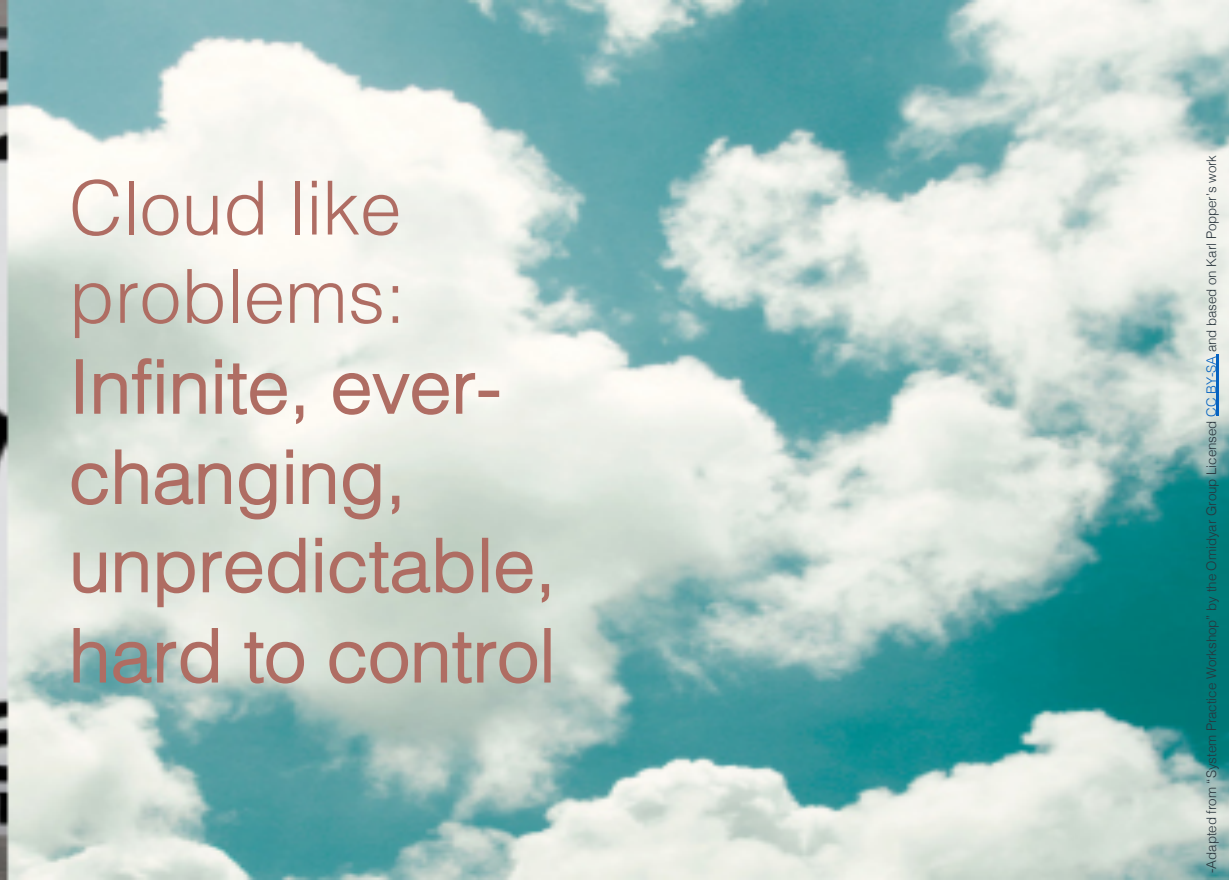

Complex Problems

Clock like problems: Mechanical, finite, predictable and controllable

Cloud like problems: Infinite, ever-changing, unpredictable, hard to control

TECHNICAL CHALLENGES

ADAPTIVE CHALLENGES

Clock-Like Fixes Fail in Cloud-Like Contexts

Complex, adaptive challenges (cloud problems)

Cannot be solved or transformed by linear approaches (clock-like means)

What If?...

We optimized for cognitive diversity?

What If?...

## We engineered creative collisions?

What If?...

We designed for adaptive capacity?

Imagine…

Thank You!
